COOKIE POLICY

Version 1.1 · in force from 19 November 2026 · earlier versions are kept and sent on request.

This policy explains the cookies and similar storage used by this site, as required by article 22.2 of the Spanish law on information-society services (LSSI) and the guidance of the Spanish data-protection authority (AEPD, Guía sobre el uso de las cookies). This site uses only storage that is strictly necessary for a service you ask for. Such storage is exempt from consent, so the site does not ask for it. The one exception is keeping an access or a sign-in beyond your browsing session, which the site does only if you tick the box that offers it: that tick is your consent (see below).

What they are

A cookie is a small file that a site places in your browser; local storage and session storage are similar stores inside the browser. They let a site recognise your browser, keep you signed in, remember a choice or measure visits. A cookie may be set by the site itself (first party) or by a provider whose service the site embeds (third party). Some last only while a tab is open (session), others for a set time (persistent).

Who sets them

L.O.A.D. NFT, S.L., Carrer de Llull 134, 08005 Barcelona, Spain, publisher of this site. All the storage of this site is first party: no third party sets or reads cookies or other storage through it.

Necessary storage only

Necessary storage is exempt from consent: it only keeps the site working for a service you asked for. It is the only kind this site uses: to keep open the access the gallery gave you, to remember the unit you chose for dimensions, and to keep a member of the gallery team signed in to its register. The site does not measure its audience, shows no content hosted by other companies (its films and fonts come from LOAD's own server) and uses no advertising cookies. So there is nothing to accept or reject, and we do not ask for your consent, apart from the box that keeps an access or a sign-in beyond your browsing session (see below the table). We do not profile you, and we do not sell data.

The storage we use

Necessary (always on)

Needed for the site to work: the access the gallery gave you with a code, a link or a QR code, the unit you chose for the dimensions of the works, and the gallery team's sign-in to its register of requests. They are not used for any other purpose.

Name	Set by	Purpose	Lasts	Type
`__Host-load_col`	LOAD	Keeps open the access the gallery gives with a code, a link or a QR code: the prices and the private viewing. It holds an access number, the kind of access (a collector's code or link, the gallery's own, or a fair QR code) and its end date, signed by the server; the page itself cannot read it.	Until you close the browser, 12 hours at most. If you tick "Stay signed in on this device": until your code expires, 90 days at most, or 30 days for the gallery's own access. Never kept for a fair QR code.	Cookie, first party
`load_col`	LOAD	Only says that this access is open, so that the page asks the server for the prices. It holds nothing else.	The same as __Host-load_col.	Cookie, first party
`load_unit`	LOAD	Remembers the unit you chose for the dimensions of the works (cm, m or ft).	Until you clear this website's data in your browser. Choosing another unit only changes it.	Local storage, first party
`__Host-load_reg`	LOAD	For the gallery team only: keeps a team member signed in to the register of requests.	Until the browser is closed, 12 hours at most; 14 days if the team member stays signed in on their own device.	Cookie, first party
`__Host-load_regf`	LOAD	For the gallery team only: remembers the filters chosen on the register page, so that a name or an email searched for never appears in an address.	Until the browser is closed or the team member signs out.	Cookie, first party

The access cookies outlive your browsing session only if you tick 'Stay signed in on this device' when you open the access; you can end them at any time with the Lock button of the access. Keeping the access beyond your browsing session is not needed for the site to work, so we do it only with your consent: ticking that box, which is never ticked in advance, is your consent (LSSI art. 22.2), and you withdraw it at any time with Lock or by deleting the cookies. In the same way, a member of the gallery team stays signed in to the register beyond the browser session only by ticking the box that offers it on their own device.

If this changes

Before this site uses any storage that is not strictly necessary, such as audience measurement or videos hosted by another company, we will update this policy and ask for your consent first: nothing of that kind will run before your choice, and rejecting will be as easy as accepting.

How to delete them

You may delete cookies and this site's data in your browser at any time: Chrome, Safari, Firefox and Edge explain how in their help pages. If you do, the access the gallery gave you closes on that device, and the dimensions are shown again in the default unit.

Your rights

For the data that cookies collect, the rights and contacts of the Privacy policy apply.
